First Semester Examination, March 2019

Third Year (B.A)

Eng 3103

English Specialization

English Language Studies-3

Time allowed: (3) hours

Answer FIVE questions. (Attempt question No. I and other FOUR questions.)

I. Add notes on any **TWO** of the following:

- (a) Pragmatic information
- (b) Alphabetic Abbreviation
- (c) Backformation

II. Explain how free morphemes and bound morphemes can be categorized.

III. "In English (as in many other languages), new words can be formed from already existing words by a process known as compounding, in which individual words are joined together to form a compound word." Discuss.

IV. Explain the distinctions between open-class words and closed-class words from the morphological point of view.

V. State one of the problematic aspects of morphological analysis.

VI. How can you classify elements in morphology? Explain.
